

2010 NGM Joint Meeting Program August 27-29, 2010

POSTER SESSION

Friday, August 27, 2010 and Saturday, August 28, 2010
12:00-2:30 pm

Appetite Regulation, Satiety, Obesity, and Nutrition

Poster No.

- 1 **EFFECTS OF KAOLINITE INGESTION ON LIPID ABSORPTION AND WEIGHT REGULATION.** *F Angel, C Fischer, F Voinot, A Boeuf, L Sabatier, J Lignot, and N Liewig, Strasbourg, France.* Program 73
- 2 **ROLE OF THE INTESTINAL SEROTONERGIC SYSTEM IN THE DEVELOPMENT OF HIGH-FAT DIET-INDUCED OBESITY AND INCEPTIVE NON-ALCOHOLIC FATTY LIVER DISEASE (NAFLD) IN MICE.** *SC Bischoff, S Haub, A Spruss, G Kanuri, P Enck, S Zipfel, and Y Ritze, Stuttgart, Germany. University of Hohenheim* Program 74
- 3 **A PILOT STUDY EVALUATING THE ROLE OF COMBINED IMPEDANCE-PH MONITORING IN THE EVALUATION OF ASIAN PATIENTS WITH SUSPECTED SUPRA-ESOPHAGEAL MANIFESTATIONS OF GERD: ESTABLISHING THE PRESENCE OF ACID AND NON-ACID REFLUX.** *D Ang, TL Ang, CH Poh, KM Fock, Singapore. Changi General Hospital* Program 75
- 4 **DIFFERENCES IN GUSTATORY AND GASTROINTESTINAL (GI) SENSITIVITY TO OLEIC ACID BETWEEN LEAN AND OBESE.** *C Feinle-Bisset, JE Stewart, RV Seimon, B Otto, R Keast, and P Clifton, Adelaide, Melbourne, Australia, and Munich, Germany. University of Adelaide Discipline of Medicine* Program 76
- 5 **EFFECTS OF ACUTE ENERGY RESTRICTION ON GASTROINTESTINAL MOTOR, HORMONE, AND ENERGY INTAKE RESPONSES TO DUODENAL LIPID IN OBESE MEN.** *C Feinle-Bisset, IM Brennan, RV Seimon, ND Luscombe-Marsh, B Otto, and M Horowitz, Adelaide, Australia and Munich, Germany. University of Adelaide* Program 77
- 6 **GUT PEPTIDES GIP, GLP-1 AND ENTEROGLUCAGON INCREASE, WHILE GHRELIN DECREASES TO IMPROVE GLUCOSE HOMEOSTASIS WITH GRADUALLY INCREASED RETENTION OF ACETAMINOPHEN AFTER GASTRIC BYPASS SURGERY FOR OBESITY.** *PM Hellström, Y Falken, E Näslund, and JJ Holst, Uppsala and Stockholm, Sweden, and Copenhagen, Denmark. Uppsala University* Program 78
- 7 **INTRAGASTRIC PRESSURE: A MAJOR DETERMINANT OF SATIATION?** *P Janssen and J Tack, Leuven, Belgium. Center for Gastroenterological Research* Program 79
- 8 **IMPAIRED GASTRIC ACCOMMODATION DECREASES FOOD INTAKE BY INCREASING THE INTRAGASTRIC PRESSURE.** *P Janssen, S Verschueren, and J Tack, Leuven, Belgium. Center for Gastroenterological Research* Program 80

Poster No.

- 9 THE EFFECT OF CHRONIC ORAL MONOSODIUM GLUTAMATE ADMINISTRATION UNDER CHRONIC VARIABLE STRESS IN ADULT RAT.** *Y Kim, S Choi, HS Ryu, HJ Seo, and MY Lee, Iksan, South Korea. Wonkwang University* Program 81
- 10 THE ROLE OF ENDOGENOUS CHOLECYSTOKININ IN THE REGULATION OF GASTRIC EMPTYING IN LEAN AND OBESE INDIVIDUALS.** *E Patel, RB Jones, TJ Little, MD Amato, JT McLaughlin, and DG Thompson, London, Manchester, United Kingdom, and Monza, Italy. University of Manchester* Program 82
- 11 LEPTIN STIMULATES NEURONS IN THE GUINEA-PIG SUBMUCOUS AND MYENTERIC PLEXUS.** *F Reichardt, B Kuch, and M Schemann, Freising, Germany. Technische Universität München* Program 83
- 12 FASTING AND REFEEDING EPISODES ALTER MOTOR PATTERNS AND NNOS-EXPRESSION IN THE JEJUNUM.** *LJ Roosen, W Boesmans, M Dondeyne, J Tack, and P Vanden Berghe, Leuven, Belgium. Center for Gastroenterological Research* Program 84
- 13 CAN WE DISCRIMINATE BETWEEN “MANPUKU” (SATIETY) AND “BOUMAN” (EPIGASTRIC BLOATING)?** *Y Sakamoto, M Inamori, H Iida, T Akiyama, T Ikeda, and A Nakajima, Yokohama and Tokyo, Japan. Yokohama City University* Program 85
- 14 LONG-TERM FOLLOW UP OF PERIPHERAL NERVE STIMULATION OF THE OCCIPITAL REGION- CERVICAL DERMATOME 1 AND 2- IN MORBIDLY OBESE SUBJECTS.** *I Sarosiek, K Roeser, J Grant, and RW McCallum, El Paso, TX and Kansas City, KS. Texas Tech University Health Sciences Center* Program 86

Biliary and Small Intestinal Physiology, Pathophysiology, and Clinical Disorders

- 15 NEURAL INVASION IN PANCREATIC CANCER IS ASSOCIATED WITH A TARGETED MIGRATION OF SCHWANN CELLS TO PANCREATIC CANCER CELLS.** *GO Ceyhan, I Demir, A Boldis, T Kehl, and H Friess, Munich, Germany. Technische Universität München* Program 87
- 16 SMALL INTESTINAL MOTILITY IN PATIENTS WITH NEUROENDOCRINE TUMORS EVALUATED BY MOTILITY TRACKING SYSTEM.** *T Gregersen, J Worsoe, H Gronbaek, V Schlageter, S Laurberg, and K Krogh, Aarhus, Denmark and Lausanne, Switzerland. Aarhus University Hospital* Program 88
- 17 EFFECTS OF MODULATORS OF THE VOLTAGE-GATED CA²⁺ CHANNELS ON ENTERIC NEURONS AND MOTILITY OF CONTROL AND INFLAMED INTESTINE.** *K Nurgali, JY Choi, M Ellis, B Hunne, and R Bron, Melbourne, Victoria, AC, Parkville, VIC, Australia. The University of Melbourne* Program 89
- 18 CELIAC DISEASE IN PATIENTS WITH A HISTORY OF IRRITABLE BOWEL SYNDROME.** *KM Robson and DL Burns, Burlington, MA. Lahey Clinic Medical Center* Program 90
- 19 INFLUENCE OF SMALL INTESTINAL BACTERIAL OVERGROWTH ON MOTILITY INDEX PARAMETERS AND TRANSIT TIME RECORDED BY WIRELESS MOTILITY CAPSULE TECHNOLOGY.** *I Sarosiek, B Sochacka, K Roeser, J Sarosiek, and RW McCallum, El Paso, TX and Kansas City, KS. Texas Tech University Health Sciences Center* Program 91

Poster No.

- 20 A NOVEL MURINE MODEL FOR THE STUDY OF EDEMA-INDUCED INTESTINAL CONTRACTILE DYSFUNCTION.** *SK Shah, SD Moore-Olufemi, KS Uray, F Jimenez, PA Walker, H Xue, RH Stewart, GA Laine, and CS Cox, Houston, TX and College Station, TX. University of Texas Medical School at Houston* Program 92
- 21 THE OCCURRENCE OF SMALL INTESTINAL BACTERIAL OVERGROWTH IN PRIMARY BILIARY CIRRHOSIS.** *S Sidani, C Vincent, and M Bouin, Montreal, Quebec, Canada Universite de Montreal* Program 93
- 22 PAK-MEDIATED REGULATION OF MYPT1 PHOSPHORYLATION IN EDEMATOUS INTESTINAL SMOOTH MUSCLE.** *KS Uray, SK Shah, and CS Cox, Houston, TX. University of Texas Medical School at Houston* Program 94
- 23 THE MULTI-HERBAL DRUG STW 5 (IBEROGAST®): POTENTIAL MECHANISMS FOR THE TREATMENT OF IRRITABLE BOWEL SYNDROME.** *U Voss, S Michael, S Hoser, O Kelber, D Weiser, and K Nieber, Leipzig and Darmstadt, Germany. University of Leipzig* Program 95
- 24 SMOOTH MUSCLE FUNCTION OF PARTIAL OBSTRUCTED INTESTINAL SEGMENT OF GUINEA PIGS IN VITRO - EVALUATION OF PHASIC AND TONIC STRESS-STRAIN CURVES.** *J Zhao, D Liao, J Yang, and H Gregersen, Aalborg, Denmark and La Jolla, California. Mech-Sense, Aalborg Hospital Science and Innovation Center* Program 96
- 25 STRESS AND STRAIN ANALYSIS OF CONTRACTIONS DURING RAMP DISTENSION IN PARTIALLY OBSTRUCTED GUINEA PIG JEJUNUM.** *J Zhao, D Liao, J Yang, and H Gregersen, Aalborg, Demark and La Jolla, California. Mech-Sense, Aalborg Hospital Science and Innovation Center* Program 97

Brain Gut Axis: Animal Studies

- 26 SEQUELAE OF CHEMOTHERAPY: EFFECT OF CHRONIC CISPLATIN ON INTESTINAL MOTOR FUNCTION AND ASSOCIATED HISTOLOGICAL AND MOLECULAR ALTERATIONS IN THE RAT.** *R Abalo, G Vera, MA Castillo, C Garc-A-Jimenez, Jm Garc-A-Mart-Nez, R De Giorgio, and MI Mart-N, Alcorcon, and Bologna, Italy. Rey Juan Carlos* Program 98
- 27 RESPONSES OF BRAINSTEM VAGAL NEUROCIRCUITS TO OXYTOCIN ARE UNCOVERED IN A RODENT MODEL OF FUNCTIONAL DYSPEPSIA.** *T Babic, KN Browning, and R Travagli, Hershey, PA. Pennsylvania State University* Program 99
- 28 SPINAL CORD INJURY DECREASES RESPONSE OF BRAINSTEM VAGAL NEURONS TO GHRELIN.** *KN Browning, R Travagli, and GM Holmes, Hershey, PA and Baton Rouge, LA. Pennsylvania State University* Program 100
- 29 SEQUELAE OF CHEMOTHERAPY: EFFECT OF CHRONIC CISPLATIN ON VISCERAL SENSITIVITY IN THE RAT.** *MA Castillo, R Abalo, V López-Miranda, G Vera, PA Cabezos, and MI Martín, Alcorcón, Madrid, Spain. Universidad Rey Juan Carlos* Program 101
- 30 DETECTION OF CORTICOTROPIN-RELEASING FACTOR (CRF) IN THE PLASMA BY THE RAPID METHOD AND REGULATION BY ENDOTOXIN IN RATS.** *M Goebel, A Stengel, L Wang, JR Reeve, and Jr., Y Taché, Los Angeles, CA. David Geffen School of Medicine at UCLA* Program 102

Poster No.

- 31 CRF₂ RECEPTOR ACTIVATION BLUNTS STRESS AND CRF-INDUCED COLONIC MOTOR FUNCTION IN RODENTS.** *G Gourcerol, V Wu, P Yuan, M Miapamba, M Larauche, T Amano, P Sanders, J Rivier, Y Taché, and M Mulugeta, Los Angeles and San Diego, CA. David Geffen School of Medicine at UCLA* Program 103
- 32 CHRONIC STRESS IS ASSOCIATED WITH REGION-SPECIFIC CHANGES IN ENDOCANNABINOID (CB1) AND ENDOVANILLOID (TRPV1) RECEPTORS IN DRG NEURONS INNERVATING THE RAT COLON.** *S Hong, G Zheng, and JW Wiley, Ann Arbor, MI. University of Michigan* Program 104
- 33 MAST CELLS ARE EARLY RESPONDERS DRIVING MESENTERIC AFFERENT SIGNALING DURING INTESTINAL ISCHEMIA.** *W Jiang and D Grundy, Sheffield, United Kingdom. The University of Sheffield* Program 105
- 34 REPEATED PSYCHOLOGICAL STRESS INDUCES AN OPIATE INDEPENDENT IMMEDIATE VISCERAL ANALGESIA BUT NO SUSTAINED HYPERALGESIA AS ASSESSED BY A NEW NON-INVASIVE MANOMETRY METHOD.** *M Larauche, A Mulak, Y Kim, M Million, And Y Taché, Los Angeles, CA. David Geffen School of Medicine at UCLA* Program 106
- 35 CENTRAL GLP-1 RECEPTORS ARE INVOLVED IN THE EMETIC REFLEX OF SUNCUS MURINUS (HOUSE MUSK SHREW).** *JA Rudd, SW Chan, G Lin, and DTW Yew, China. Chinese University of Hong Kong* Program 107
- 36 MELANIN CONCENTRATING HORMONE-IMMUNONEUTRALIZATION INHIBITS COLITIS-ASSOCIATED INTESTINAL FIBROSIS.** *DC Ziogas, Y Wang, S Mustafa, Y Tseng, L McDougal, Y Popov, D Schuppan, and E Kokkotou, Boston, MA. Harvard Medical School* Program 108

Colon and Anorectum: Physiology, Pathophysiology, and Clinical Disorders

- 37 IRRITABLE BOWEL SYNDROME SUBTYPING BY BRISTOL STOOL FORMS IN BANGLADESHI PATIENTS.** *MM Ahmad, Dhaka, Bangladesh. LabAid Medical College Hospital* Program 109
- 38 A NOVEL METHOD OF MEASURING ANORECTAL FUNCTION USING DISTENSIBILITY TESTING.** *MM Alqudah, A Brokjaer, G H, and BP McMahon, Dublin, Ireland and Aalborg, Denmark. Institute of Technology Tallaght* Program 110
- 39 ROLE OF α 7 NICOTINIC ACETYLCHOLINE RECEPTOR SUBTYPES IN DEXTRAN SULFATE SODIUM-INDUCED COLITIS MODEL IN MICE.** *SD AlSharari, I Damaj, and H Akbarali, Richmond, VA. Virginia Commonwealth University* Program 111
- 40 DO MYOGENIC MECHANISMS EXPLAIN INCREASED RECTAL STIFFNESS IN FECAL INCONTINENCE (FI)?** *AE Bharucha, BM Seide, J Edge, and AR Zinsmeister, Rochester, MN. Mayo Clinic* Program 112
- 41 DISRUPTED COLONIC MOTILITY IN *LEP^{ob/ob}* TYPE II DIABETIC MICE.** *PJ Blair, S Hwang, Y Bayguinov, KM Sanders, and SM Ward, Reno, NV. University of Nevada* Program 113

Poster No.

- 42 THE CYTOKINESIS BLOCKED MICRONUCLEUS (CBMN) ASSAY IS ASSOCIATED WITH LATE GI SEQUELAE WHICH IMPAIR QUALITY OF LIFE (QOL) OF PATIENTS 3 YEARS AFTER RADIATION THERAPY (RT) FOR CARCINOMA OF THE PROSTATE (CaP), WHILE DIETARY MICRONUTRIENTS MAY REDUCE THE IMPACT.**
R Botten, E Yeoh, AC Di Matteo, J Butters, VS Dhillon, C Salisbury, RH Holloway, and M Fenech, Adelaide, S Australia. Royal Adelaide Hospital Program 114
- 43 DIETARY CAROTENOID INTAKE INDEPENDENTLY PREDICTS FOR ACUTE GASTROINTESTINAL (GI) SEQUELAE FOLLOWING RADIATION THERAPY (RT) FOR CARCINOMA OF THE PROSTATE (CaP).** *R Botten, E Yeoh, AC Di Matteo, J Butters, VS Dhillon, C Salisbury, B Benassi-Evans, RH Holloway, and M Fenech, Adelaide, S Australia. Royal Adelaide Hospital* Program 115
- 44 RECTAL POWER: A NEW QUANTIFICATION OF RECTAL FUNCTION FROM CONCURRENT FLUOROSCOPY AND MANOMETRY.** *JG Brasseur, S Kim, D Hartman, H Hal, K Ahn, and A Ouyang, University Park and Hershey, PA. Pennsylvania State University* Program 116
- 45 TOPOGRAPHIC AND MULTIDIMENSIONAL ANAL PRESSURE PROFILES IN HEALTH, CONSTIPATION, & INCONTINENCE.** *G Cheeney, A Attaluri, M Nguyen, J Valestin, C Phillips, and S Rao, Iowa City, IA. University of Iowa* Program 117
- 46 A PIPELINE FOR THE ANALYSIS AND VISUALIZATION OF HIGH-RESOLUTION COLONIC MANOMETRY RECORDINGS.** *JB Davidson, L Wiklendt, G O'Grady, JW Arkwright, AJ Pullan, and PG Dinning, Auckland, New Zealand and Sydney, Australia. University of Auckland* Program 118
- 47 TISSUE REMODELLING AND DISMOTILITY IN STRIPS FROM COLONIC DIVERTICULAR DISEASE PATIENTS.** *F Espin, V Gil, C Admella, M Jiménez, P Clavé and D Gallego, Barcelona, Spain. Hospital de Mataró* Program 119
- 48 MORPHOLOGICAL CHANGES OF ENTERIC NEURONS IN RATS WITH IBS AND ITS POTENTIAL ROLE ON INTESTINAL SECRETION.** *X Fang, S Li, G Fei, X Yang, Z Wang, and X Sun, Beijing, China. Peking Union Medical College* Program 120
- 49 FUNCTIONAL RESULTS OF SACRAL NERVE STIMULATION FOR IRRITABLE BOWEL SYNDROME.** *JL Fassov, L Lundby, K Krogh, S Buntzen, and S Laurberg, Aarhus, Denmark. Aarhus University* Program 121
- 50 RELATIONSHIP BETWEEN PLATELET-DERIVED GROWTH FACTOR RECEPTOR α (PDGFR α) POSITIVE CELLS AND ENTERIC NEURONS IN MICE COLON.**
M Kurahashi, SD Koh, SM Ward, and KM Sanders, Reno, NV. University of Nevada Reno Program 122
- 51 DO PATIENTS WITH DELAYED TRANSIT CONSTIPATION HAVE A HIGHER PREVALENCE OF DELAYED UPPER GUT TRANSIT?** *JD Long, S Culler, L Griffin, K Koch, and NK Thorne, Winston Salem, NC. Wake Forest University Health Sciences* Program 123

Poster No.

- 52 ALTERATIONS IN NITRERGIC NEUROMUSCULAR TRANSMISSION OF COLONIC CIRCULAR AND LONGITUDINAL MUSCLE FROM PATIENTS WITH CROHN'S DISEASE: EFFECT OF CR3294, NEW ANTI-INFLAMMATORY COMPOUND.**
MM Maselli, PP Trisolini, FF Pezzolla, II Demma, MM Caruso, OO Letari, and GG Caselli, Castellana Grotte, Bari and Monza, Italy . Scientific Institute of Gastroenterology Program 124
- 53 CO-EXISTENCE OF CONSTIPATION AND FAECAL INCONTINENCE: A GREATLY UNDERAPPRECIATED CLINICAL PROBLEM.** *SD Mohammed, N Zarate, PJ Lunniss, and S Scott, London, United Kingdom. Queen Mary, University of London* Program 125
- 54 HOW USEFUL IS WIRELESS MOTILITY CAPSULE IN DIAGNOSIS OF GASTROINTESTINAL DYSMOTILITY?** *K Mysore, A Attaluri, J Valestin, and S Rao, Iowa City, IA. University of Iowa* Program 126
- 55 THE GASTROINTESTINAL FUNCTION AND BIOFEEDBACK THERAPY RESPONSE IN CONSTIPATED PATIENTS AFTER RADICAL HYSTERECTOMY AND DELIVERY.**
SJ Myung, K Lee, N Kim, D Yang, S Yoon, K Kim, B Ye, J Byeon, S Yang, H Jung, and J Kim, Seoul, Suwon, and Seongnam, Korea. University of Ulsan College of Medicine Program 127
- 56 NEURAL REGULATION OF THE RAT INTERNAL ANAL SPHINCTER, HYPERPOLARIZATION AND RELAXATION INVOLVING TWO COMPLEMENTARY NEUROTRANSMITTERS: NO AND ATP.** *A Opazo, B Lecea, V Gil, M Jimenez, P Clave, and D Gallego, Barcelona, Spain. Hospital de Mataró* Program 128
- 57 HIGH RESOLUTION ANORECTAL MANOMETRY AND ULTRASONOGRAPHY OF INTERNAL ANAL SPHINCTER IN PATIENTS WITH ANAL FISSURE.** *A Opazo, E Aguirre, and P Clave, Barcelona, Spain. Hospital de Mataró* Program 129
- 58 CLINICALLY RELEVANT CORRELATIONS THAT DESCRIBE THE PROCESS OF DEFECATION.** *A Ouyang, S Kim, D Hartman, H Hal, K Ahn, and J Bresseur, University Park and Hershey, PA. Pennsylvania State University* Program 130
- 59 FATIGABILITY OF THE EXTERNAL ANAL SPHINCTER IN INFLAMMATORY BOWEL DISEASE: SIGNIFICANCE IN FECAL URGENCY AND INCONTINENCE.**
AA Papathanasopoulos, KH Katsanos, DK Christodoulou, A Tatsioni, and EV Tsianos, Ioannina, Greece. University of Ioannina Medical School Program 131
- 60 THE ATYPICAL CANNABINOID O-1602 PROTECTS AGAINST DSS- AND TNBS-INDUCED COLITIS IN MICE.** *R Schicho, M Bashashati, D Saur, A Zimmer, KA Sharkey, and M Storr, Calgary, AB, Canada, Munich and Bonn, Germany. University of Calgary* Program 132
- 61 IS COLONIC MANOMETRY USEFUL IN EVALUATION OF SENSORIMOTOR DYSFUNCTION IN SLOW TRANSIT CONSTIPATION (STC)?** *S Singh, D Dickinson, and S Rao, Iowa City, IA. University of Iowa* Program 133
- 62 HIGH RESOLUTION ANORECTAL MANOMETRY-COMPARISON WITH WATER PERFUSION MANOMETRY AND DEFECOGRAPHY.** *C Sohn, J Park, D Park, Y Cho, H Kim, W Jeon, B Kim, P Rhee, M Park, and J Kwon, Seoul, Busan and Daegu, Korea. Sungkyunkwan University* Program 134
- 63 COMBINED STUDY USING ANORECTAL MANOMETRY AND ENDOSCOPIC ULTRASOUND TO ESTABLISH A MANOMETRIC CUT OFF TO IDENTIFY SPHINCTER THICKNESS AND SURGICALLY CORRECTABLE SPHINCTER**

Poster No.

DEFECTS. *NK Thorne, S Sastry, S Kundu, J Conway, and G Mishra, Winston Salem, NC. Wake Forest University Health Sciences* Program 135

- 64 NON-NEURONAL RELEASE OF ACETYLCHOLINE PLAYS A KEY ROLE IN SECRETORY RESPONSE TO LUMINAL PROPIONATE IN RAT COLON.** *T Yajima, M Matsumoto, M Yajima, and R Inoue, Sapporo, Kyoto and Shizuoka, Japan. Hokkaido University* Program 136

Electrical Control of the GI Tract

- 65 THE ELECTROPHYSIOLOGICAL BASIS OF THE EGG EXPLAINED VIA MAPPING AND VIRTUAL MODELING.** *P Du, G O'Grady, R Komuro, AJ Pullan, and LK Cheng, Auckland, New Zealand. The University of Auckland* Program 137
- 66 MUCOSAL ELECTROPHYSIOLOGICAL CHANGES IN PATIENTS WITH GASTROPARESIS AFTER TEMPORARY GASTRIC ELECTRICAL STIMULATION.** *BF Heindl, D Spree, A Kedar, C Lahr, SDF To, and TL Abell, Jackson, MS. University of Mississippi Medical Center* Program 138

Enteric Neurons: Development and Degeneration

- 67 GDNF mRNA EXPRESSION IS ALTERED IN PATIENTS WITH DIVERTICULAR DISEASE - UNDERLYING MECHANISMS AND FUNCTIONAL IMPLICATIONS.** *M Böttner, D Zorenkov, HP Bruch, UJ Roblick, JH Egberts, KH Schäfer, and T Wedel, Kiel and Kaiserslautern, Germany. University of Kiel* Program 139
- 68 DIFFERENTIAL EFFECT OF HYPERTHERMIA ON NERVES AND SMOOTH MUSCLE OF THE MOUSE ILEUM.** *S Burke, B Abu-Wasel, A Nissan, A Eid, and M Hanani, Jerusalem, Israel. Hadassah University* Program 140
- 69 PRENATAL DEVELOPMENT OF THE MYENTERIC PLEXUS IN THE HUMAN SIGMOID COLON.** *S Singh and A Shariff, New Delhi, India. All India Institute of Medical Sciences* Program 141

Esophageal Physiology, Pathophysiology, and Clinical Disorders

- 70 ENDOSCOPICALLY ASSISTED WATER PERFUSION ESOPHAGEAL MANOMETRY WITH MINIMAL SEDATION TECHNIQUE.** *R Brun, K Staller, S Viner, and B Kuo, Boston, MA. Harvard Medical School* Program 142
- 71 HIGH RESOLUTION MANOMETRY CRITERIA PREDICTING INCOMPLETE BOLUS CLEARANCE.** *YK Cho, MG Choi, YJ Jeon, HS Chung, JE Lee, WC Kim, SH Cho, CH Lim, JS Kim, JM Park, IS Lee, SW Kim, GY Choi, and IS Chung, Seoul, Korea. Catholic University* Program 143
- 72 EVALUATION OF GASTROESOPHAGEAL REFLUX WITH THE 24 HR MULTICHANNEL INTRALUMINAL IMPEDANCE-pH PROBE IN CHILDREN WITH RECURRENT LARYNGITIS.** *J Cohen Sabban, G Donato Bertoldi, L Olleta, J Razzetti, and M Orsi, Buenos Aires, Argentina. Italian Hospital* Program 144

Poster No.

- 73 INFLUENCE OF BOLUS VISCOSITY AND POSITION ON ESOPHAGEAL CONTRACTION AND TRANSIT.** *J Dalmazo, LO Aprile, and RO Dantas, Ribeirão Preto, SP, Brazil. University of Sao Paulo* Program 145
- 74 SCINTIGRAPHIC EVALUATION OF SALIVA TRANSPORT TO THE DISTAL ESOPHAGUS IN PATIENTS WITH GASTROESOPHAGEAL REFLUX DISEASE.** *RO Dantas and RA Cassiani, Ribeirão Preto, SP, Brazil. University of Sao Paulo* Program 146
- 75 A COMPARISON OF ACID AND NON-ACID REFLUX IN THE EVALUATION OF PATIENTS WITH TYPICAL VERSUS ATYPICAL MANIFESTATIONS OF GASTROESOPHAGEAL REFLUX DISEASE: RESULTS FROM AN ASIAN COHORT.** *D Ang, TL Ang, CH Poh, KM Fock, Singapore. Changi General Hospital.* Program 147
- 76 PHENOTYPING PAIN IN HEALTH - PSYCHOPHYSIOLOGICAL RESPONSES TO PAIN.** *AD Farmer, SJ Coen, H Naqvi, and Q Aziz, London, United Kingdom. Queen Mary, University of London* Program 148
- 77 OESOPHAGEAL PERFUSION OF LOW CONCENTRATIONS OF DEOXYCHOLIC ACID IMPAIRS MUCOSA INTEGRITY IN RABBITS.** *R Farré, M Vicario, N Perdon, H Vanheel, K Blondeau, M Jimenez, D Sifrim, and J Tack, Leuven, Belgium, Barcelona, Spain, and London, United Kingdom. Center for Gastroenterological Research* Program 149
- 78 THE ESOPHAGEAL MOTILITY RESPONSE TO PHYSIOLOGIC CHALLENGE IN HEALTH, NON-EROSIVE AND EROSIIVE GASTRO-ESOPHAGEAL REFLUX DISEASE.** *MR Fox, CF Daum, R Sweis, E Kaufman, A Fuelleman, A Anggiansah, and M Fried, Nottingham, United Kingdom, Zürich, Switzerland, and London, United Kingdom. University of Nottingham* Program 150
- 79 DISEASE-SPECIFIC HEALTH-RELATED QUALITY OF LIFE IN PATIENTS WITH SYMPTOMATIC ESOPHAGEAL ACHALASIA INCREASES AFTER THERAPY IN ASSOCIATION WITH SYMPTOM IMPROVEMENT.** *V Garrigues, V Ortiz, C Casanova, L Bujanda, E Moreno-Osset, M Rodríguez-Téllez, A Montserrat, Á Brotons, E Fort, and J Ponce, Spain. Hospital La Fe, Valencia* Program 151
- 80 RESPIRATORY SYMPTOMS DURING GASTRO-ESOPHAGEAL REFLUX ARE ASSOCIATED WITH INCREASED EXHALED 8-ISOPROSTANE LEVELS: RESULTS OF A PILOT STUDY.** *G Gourcerol, C Elie, E Verin, P Ducrotté, F Ziegler, and AM Leroi, Rouen, France. Rouen University Hospital* Program 152
- 81 DIAGNOSTIC CONTRIBUTION OF 24H IMPEDANCE COMPARED TO 24H OESOPHAGEAL PH MONITORING: STUDY ON 220 CONSECUTIVE PH-IMPEDANCE IN A TERTIARY CENTER.** *G Gourcerol, B Salem, E Verin, E Houivet, A Leroi, and P Ducrotté, Rouen, France. Rouen University Hospital* Program 153
- 82 A PILOT STUDY ON THE RELATION BETWEEN GERD AND LPRD BASED ON SYMPTOMS.** *F Guijian, Z LiLi, and L Yulan, Beijing, China. Peking University, People's Hospital* Program 154
- 83 PATHOPHYSIOLOGICAL FINDINGS IN PATIENTS WITH NONCARDIAC CHEST PAIN.** *J Gunnarsson, J Brun, AM Drewes, H Gregersen, and M Simren, Gothenburg, Sweden and Aalborg, Denmark. University of Gothenburgh* Program 155

Poster No.

- 84 EFFECT OF GESTATIONAL AND POST NATAL MATURATION ON RESPONSE SENSITIVITY AND DURATION OF ESOPHAGO-UPPER ESOPHAGEAL SPHINCTER CONTRACTILE REFLEX (UESCR) AND LOWER ESOPHAGEAL RELAXATION RESPONSE (LESRR) IN HUMAN NEONATES.** *SR Jadcherla, J Peng, V Parks, R Moore, and S Fernandez, Columbus, OH. The Ohio State University* Program 156
- 85 VALIDATION OF THE ASAN MAYO DYSPHAGIA QUESTIONNAIRE-30 IN PATIENTS WITH ACHALASIA AS JUDGED BY HIGH-RESOLUTION MANOMETRY.** *K Jung, H Jung, I Yoon, D Kim, K Choi, K Choi, H Song, G Lee, and J Kim, Seoul, Korea. University of Ulsan, College of Medicine* Program 157
- 86 THE MANOMETRIC CHARACTERISTICS OF OPIOID ESOPHAGEAL DYSMOTILITY DISORDER BY HIGH-RESOLUTION IMPEDANCE MANOMETRY.** *K Jung, RE Kraichely, AS Arora, and JA Murray, Seoul, Korea and Rochester, MN. Mayo Clinic* Program 158
- 87 DECREASED SENSITIVITY IN PATIENTS WITH BARRETT'S ESOPHAGUS BOTH IN THE METAPLASTIC AND THE NORMAL PART OF ESOPHAGUS.** *AL Krarup, SS Olesen, P Funch-Jensen, H Gregersen, and AM Drewes, Aalborg and Aarhus, Denmark. Aarhus University* Program 159
- 88 EFFECTS OF CHILI ON GASTRIC ACCOMMODATION AND GASTROINTESTINAL SYMPTOMS IN GERD AND HEALTHY VOLUNTEERS.** *C Kriengkirakul, P Vasavid, and S Gonlanchanvit, Bangkok, Thailand. Chulalongkorn University* Program 160
- 89 ESOPHAGEAL MOTOR FUNCTION AND BOLUS TRANSIT ON HIGH-RESOLUTION IMPEDANCE MANOMETRY (HRM) IN NORMAL SUBJECTS.** *N Kumar and C Gyawali, St. Louis, MO. Washington University School of Medicine* Program 161
- 90 ISOLATING THE CONTRACTILE ELEMENTS OF THE ESOPHAGOGASTRIC JUNCTION (EGJ) USING A NOVEL 3-D HIGH RESOLUTION MANOMETRY PROBE (3-D HRM).** *MA Kwiatek, S Roman, JE Pandolfino, T Nealis, and PJ Kahrilas, Chicago, IL. Northwestern University* Program 162
- 91 DISTAL ESOPHAGEAL EMPTYING: A MECHANISTIC ANALYSIS USING 3D HIGH-RESOLUTION / CIRCUMFERENTIAL HIGH-RESOLUTION MANOMETRY (3D-HRM/CHRM) COUPLED WITH VIDEOFLUOROSCOPY AND A SQUAMOCOLUMNAR JUNCTION ENDOCLIP.** *MA Kwiatek, S Roman, JE Pandolfino, T Nealis, and PJ Kahrilas, Chicago, IL. Northwestern University* Program 163
- 92 RELATIONSHIP BETWEEN SYMPTOMATIC GASTROESOPHAGEAL REFLUX, SLEEP PARAMETERS, DAYTIME SLEEPINESS AND SLEEP QUALITY IN PATIENTS WITH OBSTRUCTIVE SLEEP APNEA.** *J Kwon, C Sohn, P Rhee, S Choi, and K Park, Daegu, Iksan and Seoul, Korea. Catholic University of Daegu* Program 164
- 93 CLINICAL PHARMACOKINETICS AND PHARMACODYNAMICS OF ARBACLOFEN PLACARBIL, A NOVEL REFLUX INHIBITOR, IN SUBJECTS WITH GERD.** *R Lal, K Zomorodi, FJ Huff, W Luo, J Tovera, R Blumenthal, A Bian, and KC Cundy, Santa Clara, CA. Xenoport, Inc.* Program 165
- 94 PROTEOMIC EVIDENCE SUGGESTIVE OF IMMUNE-MEDIATED NEURONAL DESTRUCTION OR NEURODEGENERATION IN PATIENTS WITH ACHALASIA.** *K Lee, M Yeo, S Meung, N Kim, and S Cho, Suwon, Seoul, and Seongnam, Korea. Ajou University School of Medicine* Program 166

Poster No.

- 95 THE REFLUX PATTERN OF GERD PATIENTS WITH GLOBUS IS CHARACTERIZED BY A NONACID REFLUX.** *J Lee, T Lee, H Im, Y Jung, S Hong, H Park, Y Kang, and K Hur, Seoul and Daejeon, Korea. Soonchunhyang University* Program 167
- 96 BODY POSITION AND BREATHING PATTERN CAN AFFECT THE RESULTS OF HIGH RESOLUTION MANOMETRY IN HEALTHY ADULTS.** *T Lee, J Lee, H Im, Y Jung, J Kim, J Cho, H Park, Y Kang, and K Huh, Seoul and Daejeon, Korea. Soonchunhyang University* Program 168
- 97 NISSEN FUNDOPLICATION REDUCES THE FREQUENCY OF CLASSIC TWO-PHASE AND RE-REFLUX ACID GASTROESOPHAGEAL REFLUX EPISODES IN PATIENTS WITH CYSTIC FIBROSIS.** *H Mousa and FW Woodley, Columbus, OH. The Ohio State University* Program 169
- 98 OBESITY SURGERY CONSEQUENCES AFTER GASTRIC SLEEVE, IS THE ESOPHAGUS SUFFERING? RESULTS OF A COHORT COMPARATIVE MANOMETRIC STUDY.** *A Orozco-Gamiz, Guadalajara, Mexico. Gastrolab Clinical Research* Program 170
- 99 NIGHTTIME HEARTBURN: DOES IT REFLECT NIGHTTIME REFLUX?** *WC Orr and S Goodrich, Oklahoma City, OK. Lynn Health Science Institute* Program 171
- 100 CLINICAL APPLICATIONS OF THE CHICAGO CLASSIFICATION OF DISTAL ESOPHAGEAL MOTILITY DISORDERS IN KOREAN PATIENTS.** *M Park, W Moon, S Park, K Kim, and S Choi, Busan and Iksan, South Korea. Kosin University College of Medicine* Program 172
- 101 COMPARISON OF EFFICACY OF TIMED BARIUM ESOPHAGOGRAM WITH THE ESOPHAGEAL TRANSIT SCINTIGRAPHY ON PATIENTS WITH ACHALASIA.** *H Park, K Huh, J Lee, and Y Kang, Seoul and Daejeon, Korea. Gangnam Severance Hospital, Yonsei University* Program 173
- 102 ROLE OF SWALLOW INDUCED GASTROESOPHAGEAL REFLUXES IN NON-EROSIVE GASTROESOPHAGEAL REFLUX DISEASE (NERD) EVALUATED BY 24 HR ESOPHAGEAL IMPEDANCE PH TESTING.** *T Patcharatrakul and S Gonlachanvit, Bangkok, Thailand. Chulalongkorn University* Program 174
- 103 HIGH RESOLUTION MANOMETRY (HRM) IMPROVES TRANSIENT LOWER ESOPHAGEAL SPHINCTER RELAXATIONS (TLESRS) DETECTION IN HEALTHY VOLUNTEERS.** *S Roman, F Zerbib, K Belhocine, S Bruley des Varannes, and F Mion, Chicago, IL and Nantes, France. Northwestern University* Program 175
- 104 UPPER ESOPHAGEAL SPHINCTER (UES) PRESSURE VARIATIONS DURING TRANSIENT LOWER ESOPHAGEAL SPHINCTER RELAXATION (TLESR): A DETERMINANT ROLE OF COMMON CAVITY?** *S Roman, F Zerbib, K Belhocine, S Bruley des Varannes, and F Mion, Chicago, IL and Nantes, France. Northwestern University* Program 176
- 105 DEFINING NON-ACHALASIA SPASTIC DISORDERS IN HIGH RESOLUTION ESOPHAGEAL PRESSURE TOPOGRAPHY (EPT): TIME TO ABANDON RAPID PROPAGATION?** *S Roman, D Luger, MA Kwiatek, JE Pandolfino, and PJ Kahrilas, Chicago, IL. Northwestern University* Program 177

Poster No.

Signaling: Hormones, Neurotransmitters, Receptors, Channels, Secondary Messengers

- 207 REGULATION OF COLONIC LONGITUDINAL MUSCLE CONTRACTION BY ERK1/2 AND RHO KINASE.** *CD Anderson, S Mahavadi, KS Murthy, and JR Grider, Richmond, VA. Virginia Commonwealth University* Program 279
- 208 TRANSIENT RECEPTOR POTENTIAL VANILLOID TYPE 4 (TRPV4) SLOWS MOTILITY AND REDUCES EPITHELIAL ION TRANSPORT IN THE MOUSE COLON.** *J Fichna, D Saur, KS Thorneloe, J Timmermans, and MA Storr, Calgary, AB, Canada, Munich, Germany, King of Prussia, PA, and Antwerp, Belgium. University of Calgary* Program 280
- 209 ASSESSMENT OF PLASMA CONCENTRATIONS OF GLUCAGON-LIKE PEPTIDE: BLOOD PROCESSING IS CRITICAL.** *M Goebel, A Stengel, Y Taché, R Reidelberger, A Haver, and JR Reeve, Jr., Los Angeles, CA and Omaha, NE. David Geffen School of Medicine at UCLA* Program 281
- 210 NEUROPEPTIDE S DISRUPTS THE MIGRATING MYOELECTRIC COMPLEX AND INDUCES SPIKE BURSTS AS AN INTESTINAL INFLAMMATORY MARKER RESPONSE IN THE SMALL INTESTINE OF THE RAT.** *PM Hellström, T Rudholm, and L Gillberg, Uppsala, Sweden. Uppsala University* Program 282
- 211 QUERCETIN RELAX COLON SMOOTH MUSCLE OF GUINEA-PIG VIA THE INTERACTION OF GC AND COX STIMULATION, AS WELL AS THE ANTAGONISM EFFECT ON ACETYLCHOLINE.** *WF Huang, S Ouyang, H Zhang, and CJ Lu, Xiamen, Fujian Province, China. Xiamen Medical Research Institute* Program 283
- 212 GASTROINTESTINAL TRANSIT IS NOT ALTERED IN MALE OR FEMALE SEROTONIN TRANSPORTER KO RATS.** *R Kabeer, B Patel, H Zhao, G Swain, and JJ Galligan, East Lansing, MI. Michigan State University* Program 284

Poster No.

- 213 DOWN-REGULATION OF β -ARRESTIN EXPRESSION IN THE GUINEA-PIG ILEUM BUT NOT THE COLON CORRELATES WITH MORPHINE TOLERANCE.**
M Kang, HM Payne, WL Dewey, and HI Akbarali, Richmond, VA. Virginia Commonwealth University Program 285
- 214 CORTISTATIN INHIBITS INTESTINAL SECRETION IN THE GUINEA PIG ILEUM IN VITRO.** *S Liu, W Ren, and JD Wood, La Crosse and Columbus, OH. University of Wisconsin-La Crosse* Program 286
- 215 PHARMACOLOGY OF NICOTINIC RECEPTOR MEDIATED RELAXATION IN HUMAN GASTRIC CLASP AND SLING MUSCLE FIBERS.** *LS Miller, MR Ruggieri, AK Vegesna, AS Braverman, MI Tiwana, and SB Gottimukkla, Bala Cynwyd and Philadelphia, PA. Temple University* Program 287
- 216 LOCALIZATION OF NICOTINIC RECEPTOR SUBUNITS IN HUMAN CLASP FIBERS USING IMMUNOFLOUORESCENCE.** *LS Miller, MF Barbe, AS Braverman, AK Vegesna, and MR Ruggieri, Bala Cynwyd and Philadelphia, PA. Temple University* Program 288
- 217 ALPHA-SYNUCLEIN IS INDUCED BY DEPOLARIZATION AND CAMP IN ENTERIC NEURONS.** *S Paillusson, T Lebouvier, J Chevalier, M Neunlist, and P Derkinderen, Nantes, France. Inserm* Program 289
- 218 MUCOSAL SEROTONIN AVAILABILITY IS INCREASED IN AGED MURINE COLON DUE TO IMPAIRED SEROTONIN RE-UPTAKE.** *BA Patel, H Zhao, GM Swain, JJ Galligan, X Bian, and MS Yeoman, Brighton, United Kingdom and East Lansing, MI. University of Brighton* Program 290
- 219 A NOVEL ELECTROANALYTICAL APPROACH FOR STUDYING THE REGULATION OF RELEASE AND RE-UPTAKE OF SEROTONIN FROM EC CELLS.** *BA Patel and G Marcelli, Brighton and London, United Kingdom. University of Brighton* Program 291
- 220 MORPHINE-INDUCED TOLERANCE DOES NOT ALTER CHOLINERGIC CONTRACTIONS IN THE MOUSE ILEUM AND COLON.** *GR Ross, WL Dewey, and HI Akbarali, Richmond, VA. Virginia Commonwealth University* Program 292
- 221 GSK962040: A SMALL MOLECULE MOTILIN RECEPTOR AGONIST WHICH INCREASES GASTROINTESTINAL (GI) MOTILITY IN DOGS.** *GJ Sanger, J Broad, S Leming, KL Matthews, M Briggs, M Otterson, W Winchester, SJ Cozens, GE Dukes, and K Lee, London, United Kingdom, Milwaukee, WI, and Research Triangle Park, NC. Queen Mary University of London* Program 293
- 222 DIFFERENT ABILITIES OF [NLE13]-MOTILIN AND THE MOTILIN RECEPTOR AGONIST GSK962040 TO FACILITATE CHOLINERGIC AND NITRERGIC ACTIVITY IN HUMAN ISOLATED STOMACH.** *GJ Sanger, J Broad, S Mukherjee, G Boundouki, and GE Dukes, London, United Kingdom and Research Triangle Park, NC. Queen Mary University of London* Program 294
- 223 ROLES OF ENDOGENOUS AND EXOGENOUS GHRELIN IN REGULATING GASTRIC TONE, COMPLIANCE AND ACCOMMODATION IN DOGS.** *Y Sun, G Song, and J Chen, Oklahoma City, OK and Houston, TX. Research Foundation, VA Medical Center* Program 295

Poster No.

- 224 BI-DIRECTIONAL REGULATION BY TACHYKININ NK2-RECEPTOR ON MOTOR RESPONSE IN SMOOTH MUSCLE PREPARATIONS OF ISOLATED HUMAN COLON.**
Y Tsukimi, A Nakamura, G Mizojiri, and M Toyoda, Osaka, Japan. Takeda Pharmaceutical Company Program 296

Smooth Muscle and Interstitial Cells of Cajal in Health and Disease

- 225 WNT-INDUCED EXHAUSTION OF INTERSTITIAL CELL OF CAJAL (ICC) STEM CELLS UNDERLYING AGING-ASSOCIATED ICC LOSS DOES NOT DEPEND ON MTOR SIGNALING AND MAY BE MEDIATED BY PERSISTENT β -CATENIN ACTIVATION.** *DT Asuzu, Y Hayashi, MR Bardsley, RA Urrutia, G Farrugia, and T Ordog, Rochester, MN. Mayo Clinic College of Medicine* Program 297
- 226 GASTRIC EXPRESSION OF THE ANTI-AGING PROTEIN KLOTHO PROTECTS ICC FROM OXIDATIVE STRESS.** *MR Bardsley, A Lorincz, K Choi, DT Asuzu, F Izbeki, DL Young, LN Popko, Y Hayashi, M Kuro-o, G Farrugia, and T Ordog, Rochester, MN and Dallas, TX. Mayo Clinic College of Medicine* Program 298
- 227 FUNCTIONAL EVIDENCE FOR DECREASED PLATELET-DERIVED GROWTH FACTOR (PDGF) RECEPTOR ACTIVATION IN CULTURED LOWER ESOPHAGEAL SPHINCTER (LES) CIRCULAR SMOOTH MUSCLE CELLS (CSMC) FROM WW^V MUTANT MICE.** *F Bautista-Cruz and WG Paterson, Kingston, Ontario, Canada. Queen's University* Program 299
- 228 COMPARISON OF THE MORPHOLOGICAL AND FUNCTIONAL PROPERTIES OF THE INTERNAL ANAL SPHINCTER IN WILD TYPE MICE (C57BL/6) AND MICE CONTAINING THE REDUCED FUNCTION KIT ALLELE (W^V).** *CA Cobine, A Duffy, W Yan, SM Ward, KM Sanders, and KD Keef, Reno, NV. University of Nevada, Reno* Program 300
- 229 A MATHEMATICAL MODEL OF ACTIVE FORCE PRODUCTION IN GASTRIC SMOOTH MUSCLE CELLS.** *V Gajendiran and ML Buist, Singapore. National University of Singapore* Program 301
- 230 INHIBITION OF GLYCOGEN SYNTHASE KINASE-3 (GSK-3) MIMICS INSULIN-LIKE GROWTH FACTOR-I (IGF-I)-INDUCED STEM CELL FACTOR (SCF) EXPRESSION IN THE MURINE STOMACH.** *Y Hayashi, KH Aarsvold, MR Bardsley, SJ Gibbons, and T Ordog, Rochester, MN. Mayo Clinic College of Medicine* Program 302
- 231 ALTERATIONS IN SPONTANEOUS CONTRACTIONS AND CONTRACTILE RESPONSES TO CARBACHOL AND SNP IN GASTRIC ANTRUM OF PATIENTS WITH DIABETES MELLITUS.** *J Kwon, D You, H Chae, C Cho, H Sung, K Park, and T Kim, Daegu, Korea. Catholic University of Daegu* Program 303
- 232 ELECTROPHYSIOLOGICAL PROPERTY OF PACEMAKER POTENTIAL IN HUMAN GASTRIC FUNDUS.** *J Lee, E Ko, B Min, SM Ward, S Koh, and P Rhee, Seoul, Korea and Reno, NV. Sungkyunkwan University* Program 304
- 233 A CASE OF ENTERIC DYSMOTILITY AND LOSS OF INTRAMUSCULAR INTERSTITIAL CELLS OF CAJAL.** *M Li, B Riddell, A Okrainec, and LW Liu, Toronto, Canada. University of Toronto* Program 305

Poster No.

- 234 MECHANO-REGULATION OF GENE EXPRESSION UNDERLIES MOTILITY DYSFUNCTION IN BOWEL OBSTRUCTION.** *YM Lin, SK Sarna, and XP Shi, Galveston, TX. University of Texas Medical Branch* Program 306
- 235 IDENTIFICATION OF THE SIGNALING MECHANISMS THAT MEDIATE HYPERCONTRACTILITY OF COLONIC LONGITUDINAL MUSCLE DURING INFLAMMATION: ACTIVATION OF MLCK VIA NF- κ B/PKA/AMPK PATHWAY.** *S Mahavadi, CD Anderson, O AlShboul, JF Kuemmerle, KS Murthy, and JR Grider, Richmond, VA. Virginia Commonwealth University* Program 307
- 236 DECREASED CONTRACTILE RESPONSE OF GASTRIC CLASP AND LOWER ESOPHAGEAL CIRCULAR MUSCLE STRIPS IN-VITRO IN BARRETT'S ESOPHAGUS COMPARED TO NORMAL SUBJECTS.** *LS Miller, AK Vegesna, AS Braverman, MI Tiwana, E Miller, and MR Ruggieri, Bala Cynwyd and Philadelphia, PA. Temple University* Program 308
- 237 A NOVEL POSTNATAL ANIMAL MODEL TO STUDY GASTROSCHISIS-RELATED GUT DYSFUNCTION.** *SD Moore-Olufemi, SK Shah, H Xue, F Jimenez, PA Walker, and CS Cox, Houston, TX. The University of Texas Medical School-Houston* Program 309
- 238 QUANTIFYING A GASTROINTESTINAL SODIUM CHANNELOPATHY.** *YC Poh and ML Buist, Singapore. National University of Singapore* Program 310
- 239 IC CILIOME: MARKERS FOR PRIMARY CILIUM IN MOUSE KIT-IR INTERSTITIAL CELLS OF CAJAL.** *J Vanderwinden, S Ralea, P Gromova, and P Hague, Brussels, Belgium. Faculté de Médecine* Program 311
- 240 CONTRACTILE RESPONSE OF PORCINE ESOPHAGEAL MUSCULARIS MUCOSA.** *AK Vegesna, MI Tiwana, AS Braverman, LS Miller, and MR Ruggieri, Bala Cynwyd and Philadelphia, PA. Temple University* Program 312
- 241 REGIONAL DIFFERENCES IN DESCENDING INHIBITION TO COLONIC CIRCULAR SMOOTH MUSCLE (CSM) OF W/W^V MUTANT MICE.** *Y Zhang and WG Paterson, Kingston, Ontario, Canada. Queen's University* Program 313
